

Osama Banihani

Junior Full Stack Developer · React.js · Node.js

+962775636488 | osamabanihani124@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Junior full stack developer with hands-on experience building web and mobile applications using the MERN stack, Flutter, and RESTful APIs. Delivered responsive, production-ready interfaces and contributed across the full software development lifecycle in agile team environments. Fresh graduate eager to grow in a professional engineering role.

SKILLS

Frontend: HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Mobile: Flutter, Dart

Databases: PostgreSQL, MongoDB, Firebase Firestore

Tools: Git, GitHub, Postman, Figma, VS Code

EXPERIENCE

Full Stack Developer

Jan 2026 – May 2026

DOT Jordan — Amman, Jordan

- Built and deployed full-stack web applications using the **MERN stack**, delivering 3 production-ready features across frontend and backend within a 5-month programme.
- Designed and integrated **RESTful APIs** connecting React.js frontend to Node.js/Express backend, reducing manual data handling steps by ~60% across key user flows.
- Managed **MongoDB** collections and Mongoose schemas for dynamic data models, supporting reliable data flow across all application modules.
- Collaborated with a team of 5 developers using **Git and GitHub**, maintaining clean version history and zero merge conflicts across shared branches.

Flutter Developer

Oct 2025 – Dec 2025

DOT Jordan — Amman, Jordan

- Built 2 cross-platform mobile applications in **Flutter/Dart**, converting Figma designs into responsive production UIs with consistent behaviour across iOS and Android.
- Implemented **state management** and integrated REST APIs, ensuring reliable data flow across all mobile features and reducing UI inconsistency bugs by ~40%.

Full Stack Web Development Trainee

Jun 2023 – Oct 2023

Tuned Applications — Irbid, Jordan

- Contributed to front-end and back-end development within **ASP.NET** projects, building responsive interfaces using HTML5, CSS3, JavaScript, and Bootstrap.

PROJECTS

Travel Nest — Full Stack Tourism Web Application

React.js, Laravel, JavaScript, MySQL, Git

- **Led front-end development** of a full-stack tourism platform, implementing responsive UI components and booking workflow features serving the project's full user journey.
- Integrated booking workflow and database features using Laravel and MySQL, collaborating across a team of 4 using Git throughout the full development lifecycle.

EDUCATION

BSc in Computer Science

2021 – 2025

Jadara University — Irbid, Jordan
